

Ronald van Ackooij

Manager Consultancy Services | Cloud consultant| NetPro Group

As a firm believer in Microsoft's technologies, and the benefits businesses can have when choosing for Microsoft's portfolio. I am driving by inspiring businesses and their employees to get the most out of their investments made in Microsoft's portfolio.

I'm actively working in the IT industry since the year 2000. Coming from a position as an IT specialist at a large retail organization in The Netherlands, I've moved my love for Microsoft solutions to the Caribbean. Currently providing my services to a well-known Solutions Provider based on the island of Curaçao (and Aruba), I'm daily trying to inspire business all over the Caribbean.

My focus has always been on identity, messaging, security and productivity, off course, in the "Cloud first – Mobility first" era we live in, my main focus lays on the Office 365 platform together with the Enterprise Mobility + Security Suite.

Holding over 40 Microsoft's certifications including: MCSE Mobility, MCSA Office 365, MCSA Windows 10, MCSA Server 2012.
